## **Local Firm Teams with Small Business to Win \$155M IDIQ with the Department of Transportation**

(Fairmont, WV) – ProLogic, Inc, a local Information Technology (IT) firm with more than 290 employees recently received a multi-award Indefinite Delivery/Indefinite Quantity (IDIQ) contract as part of a Joint Venture (JV) led by MORI Associates, a woman-owned, SBA certified 8(a) and Small Disadvantaged Business (SDB). MORI is the managing partner for MORI-ProLogic JV, LLC which was awarded the contract by the Department of Transportation (DOT).

“We have been notified by the DOT that the MORI-ProLogic JV, LLC is one of three winners selected on the basis of “best value” from 19 bids submitted and evaluated,” according to Jay Reddy CEO/Founder of ProLogic. The contract is an IDIQ task order based Firm Fixed Price Time and Materials contract, spanning a base year and four optional years with a ceiling value of \$155M. The scope of work will encompass business areas such as, Service Center and Network Operations Center support; Messaging and Directory Services support; Network Management and Administrative support; and Desktop Services support – to name a few.

Work will be performed on site at DOT Headquarters and various other locations in the Washington D.C. metropolitan area. The DOT Office of the Chief Information Officer (OCIO) is the sponsoring organization and the work will support DOT’s IT Infrastructure Common Operating Environment (COE) comprising the Office of the Secretary of Transportation and DOT’s eleven Operating Administrations (OAs).

“This award is a great win for the MORI-ProLogic team,” stated Shana Deldjoubar President/CEO of MORI Associates. “ProLogic will round out MORI’s already extensive IT offerings. MORI’s philosophy is to look in the future and make sure the clients are well prepared for what lies ahead, and the MORI-ProLogic team is well positioned to do that for DOT as they more tightly integrate the IT infrastructure across their entire enterprise.”

ProLogic, Inc is an IT company founded in 1995. We provide software development, system integration, and IT services for DoD, DOE, NASA, DOJ, and HHS. Our key contracts encompass command and control (C2), tactical data links, geo-spatial visualization, support to deployed brigade and below level combat intelligence users, force and facility protection, medical IT, and sensor modeling.
